Patent Cooperation Treaty (PCT) Information

For information concerning PCT member countries, see the notice appearing in the *Official Gazette* at 1225 O.G. 114, on August 31, 1999.

For use of the European Patent Office as an International Searching Authority for international applications filed in the United States Receiving Office, see the notice appearing in the *Official Gazette* at 1022 O.G. 52, on September 28, 1982.

For use of the European Patent Office as an International Preliminary Examining Authority for international applications filed in the United States Receiving Office, see the notices appearing in the *Official Gazette* at 1080 O.G. 2, on July 7, 1987, and at 1091 O.G. 2, on June 7, 1988. There is no longer a limit on the number of such international applications accepted for international preliminary examination by the European Patent Office; see the notice appearing at 1116 O.G. 32, on July 17, 1990.

The search fee of the European Patent Office was decreased, effective January 1, 2000, and was announced in the *Official Gazette* at 1229 O.G. 4, on December 7, 1999.

International fees were changed, effective on January 1, 2000, due to a change in the exchange rate of the U.S. dollar with regard to the Swiss franc, and were announced in the *Official Gazette* at 1229 O.G. 4, on December 7, 1999. A change in the maximum number of designation fees payable, with effect from January 1, 2000, was announced in the *Official Gazette* at 1229 O.G. 4, on December 7, 1999. A change in the reduction for electronic filing, with effect from January 1, 2000, was announced in the *Official Gazette* at 1229 O.G. 4, on December 7, 1999.

Certain domestic PCT fees have been changed by Public Law 106-113 of November 29, 1999, and were announced in the *Official Gazette* at 1229 O.G. 38, on December 14, 1999. The effective date of the fee change is December 29, 1999.

Assistant Secretary of Commerce and Commissioner of Patents and Trademarks

Notice of Maintenance Fees Payable

Title 37 Code of Federal Regulations (CFR), Section 1.362(d) provides that maintenance fees may be paid without surcharge for the six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(h), as amended effective Dec. 16, 1991. If the maintenance fee is not paid in the patent requiring such payment the patent will expire on the 4th, 8th, or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on April 1, 1997 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 5,615,413 through 5,617,579
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on March 30, 1993 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 5,197,149 through 5,199,110
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on March 28, 1989 for which maintenance fees due at 11 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,815,144 through 4,817,208
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

For patents based on applications filed on or after Dec. 12, 1980, but before Aug. 27, 1982, patent owners must establish small entity status according to 37 CFR 1.27 if they have not done so and if they wish to pay the small entity amount.

The current amounts of the maintenance fees due at 3 years and six months, 7 years and six months, and 11 years and six months are set forth in 37 CFR 1.20(e)-(g), as amended Oct. 1, 1997, which are reproduced below:

37 CFR § 1.20 Post-issuance fees

(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§ 1.9(f)) $470.00
By other than a small entity $940.00

(f) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 in force beyond 8 years; the fee is due by seven years and six months after the original grant:

By a small entity (§ 1.9(f)) $950.00
By other than a small entity $1900.00

(g) For maintaining an original or reissue patent, except a design or plant patent, based on applications filed on or after Dec. 12, 1980 in force beyond 12 years; the fee is due by eleven years and six months after the original grant:

By a small entity (§ 1.9(f)) $1455.00
By other than a small entity $2910.00

The amount of the surcharge for paying the maintenance fee during the grace period or after expiration of the patent are set forth in 37 CFR 1.20(h), and (i) which are reproduced below:

(h) Surcharge for paying a maintenance fee during the 6 month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980:

By a small entity (§ 1.9(f)) $65.00
By other than a small entity $130.00

(i) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay is shown to the satisfaction of the Commissioner to have been:

(1) unavoidable $700.00
(2) unintentional $1,640.00

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fee

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Notice Regarding Technical Center Box Issue Fee Mailings

The Office will begin mailing address labels with the PTOL-85, "Notice of Allowance and Issue Fee Due" for patent applications allowed in all Technology Centers. These address labels should be used to ensure proper routing of post-allowance correspondence. This directive supersedes the "Special Boxes for Patent Mail" instruction. Any Notice of Allowance and Issue Fee Due received without the accompanying address labels should continue to be addressed to Box Issue Fee.

Registration to Practice

The following list contains the names of persons applying for registration to practice before the United States Patent and Trademark Office who have been given provisional recognition pursuant to 37 CFR §10.9(a) to prepare and prosecute patent applications before the Office until their registration certificates are mailed to them. Final approval for registration is subject to establishing to the satisfaction of the Director of the Office of Enrollment and Discipline that the person seeking registration is of good moral character and repute. [37 CFR §10.7(a)]. Accordingly, any information tending to affect the eligibility of the following applicants on moral, ethical, or other grounds should be furnished to the Director, Office of Enrollment and Discipline on or before May 26, 2000.

Annick, Christina F., 1605 Courtland Rd., Alexandria, VA 22306

Codd, Bernard P., 1029 Kingsbury Rd., Reisterstown, MD 21136

Tacs, Stephen R., Carstens, Yee & Cahoon, L.L.P., 13760 Noel Rd., Suite 900, Dallas, TX 75240

37 CFR § 1.47 Notice by Publication

Notice is hereby given of the filing of the following applications with a petition under 37 CFR § 1.47 requesting the acceptance of the application without the signature of all inventors or, if the inventor is deceased, the legal representative of the deceased inventor. The petition in each application has been granted. A notice has been sent to the last known address of the non-signing inventor or legal representative. The inventors or legal representatives whose signatures are missing may join in the application by promptly filing an oath or declaration complying with 37 CFR § 1.63.

Changes to Application Examination and Provisional Application Practice

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Interim rule.

SUMMARY: The United States Patent and Trademark Office (Office) is revising the rules of practice in patent cases to implement certain provisions of the "American Inventors Protection Act of 1999." These provisions of the "American Inventors Protection Act of 1999" provide for continued examination of an application for a fee, extend the pendency of a provisional application if the date that is twelve months after the filing date of the provisional application falls on a Saturday, Sunday, or a Federal holiday within the District of Columbia, eliminate the copendency requirement for a nonprovisional application to claim the benefit of a provisional application, provide for the conversion of a provisional application to a nonprovisional application, and to provide a prior art exclusion for certain commonly assigned patents.

DATES: Effective Date: May 29, 2000.

Comments: To be ensured of consideration, written comments must be received on or before May 19, 2000. No public hearing will be held.

ADDRESSES: Comments should be sent by electronic mail message over the Internet addressed to: rce.comments@uspto.gov. Comments may also be submitted by mail addressed to: Box Comments—Patents, Assistant Commissioner for Patents, Washington, D.C. 20231, or by facsimile to (703) 872-9411, marked to the attention of Robert W. Bahr. Although comments may be submitted by mail or facsimile, the Office prefers to receive comments via the Internet. If comments are submitted by mail, the Office would prefer that the comments be submitted on a DOS formatted 3 1/2 inch disk accompanied by a paper copy.

The comments will be available for public inspection at the Special Program Law Office, Office of the Deputy Assistant Commissioner for Patent Policy and Projects, located at Room 3-C23 of Crystal Plaza 4, 2201 South Clark Place, Arlington, Virginia, and will be available through anonymous file transfer protocol (ftp) via the Internet (address: http://www.uspto.gov). Since comments will be made available for public inspection, information that is not desired to be made public, such as an address or phone number, should not be included in the comments.

FOR FURTHER INFORMATION CONTACT: Robert W. Bahr, Karin L. Tyson, or Robert A. Clarke by telephone at (703) 308-6906, or by mail addressed to: Box Comments—Patents, Assistant Commissioner for Patents, Washington, DC 20231, or by facsimile to (703) 872-9411, marked to the attention of Robert W. Bahr.

SUPPLEMENTARY INFORMATION: The "American Inventors Protection Act of 1999" (Title IV of the "Intellectual Property and Communications Omnibus Reform Act of 1999" (S. 1948) as introduced in the 106th Congress on November 17, 1999) was incorporated and enacted into law on November 29, 1999, by Sec. 1000(a)(9), Division B, of Public Law 106-113, 113 Stat. 1501 (1999). The "American Inventors Protection Act of 1999" contains a number of changes to title 35, United States Code. This interim rule changes the rules of practice to implement the provisions of Secs. 4403, 4801, and 4807 of the "American Inventors Protection Act of 1999."

Section 4403 of the "American Inventors Protection Act of 1999" is effective on the date six months after the date of enactment of the "American Inventors Protection Act of 1999" (May 29, 2000), and applies to applications (other than for a design patent) filed on or after June 8, 1995. Section 4801 of the "American Inventors Protection Act of 1999" is effective on the date of enactment of the "American Inventors Protection Act of 1999" (November 29, 1999) and applies to all provisional applications (with limited exception) filed on or after June 8, 1995. Section 4807 of the "American Inventors Protection Act of 1999" is effective on the date of enactment of the "American Inventors Protection Act of 1999" (November 29, 1999) and applies to all applications filed on or after November 29, 1999.

Section 4403 (Continued Examination of Patent Applications): Section 4403 of the "American Inventors Protection Act of 1999" amends 35 U.S.C. 132 to state that the Office "shall prescribe regulations to provide for the continued examination of applications for patent at the request of the applicant," and that the Office "may establish appropriate fees for such continued examinations and shall provide a 50 percent reduction in such fees for small entities that qualify for reduced fees under [35 U.S.C. 41(h)(1)]." Currently, an applicant must file a continuing application (a continuing application under Sec. 1.53(b) or a continued prosecution application under Sec. 1.53(d)) to obtain continued examination of an application for a fee (the application filing fee). Section 4403 of the "American Inventors Protection Act of 1999" will provide statutory authority for the continued examination of an application for a fee (to which the small entity reduction will be applicable) without requiring the applicant to file a continuing application.

Section 4801 (Provisional Applications): Section 4801(a) of the "American Inventors Protection Act of 1999" amends 35 U.S.C. 111(b)(5) to provide that "[n]otwithstanding the absence of a claim, upon timely request and as prescribed by the Director, a provisional application may be treated as an application filed under [35 U.S.C. 111(a)]" but that if "no such request is made, the provisional application shall be regarded as abandoned 12 months after the filing date of such application and shall not be subject to revival thereafter." Section 1.53(c), which currently provides for the conversion of a nonprovisional application (35 U.S.C. 111(a) and Sec. 1.53(b)) to a provisional application (35 U.S.C. 111(b) and Sec. 1.53(c)), is thus being amended to also provide for the conversion of a provisional application (35 U.S.C. 111(b) and Sec. 1.53(c)) to a nonprovisional application (35 U.S.C. 111(a) and Sec. 1.53(b)).

Section 4801 of the "American Inventors Protection Act of 1999" contains no provision for according the resulting nonprovisional application a filing date other than the original filing date of the provisional application. Thus, under 35 U.S.C. 154(b), the term of a nonprovisional application resulting from the conversion of a provisional application pursuant to 35 U.S.C. 111(b)(5) will be measured from the original filing date of the provisional application (which is the filing date accorded the nonprovisional application resulting from conversion under Sec. 4801 of the "American Inventors Protection Act of 1999"). Applicants are strongly cautioned to consider the patent term implications of converting a provisional application into a nonprovisional application pursuant to 35 U.S.C. 111(b)(5), rather than simply filing a nonprovisional application within twelve months of the filing date of the provisional application and claiming the benefit of that provisional application under 35 U.S.C. 119(e).

Section 4801(b) of the "American Inventors Protection Act of 1999" also amends 35 U.S.C. 119(e) to provide that "[i]f the day that is 12 months after the filing date of a provisional application falls on a Saturday, Sunday, or Federal holiday within the District of Columbia, the period of pendency of the provisional application shall be extended to the next succeeding secular or business day."

Section 4801(c) of the "American Inventors Protection Act of 1999" also amends 35 U.S.C. 119(e) to eliminate the requirement that a provisional application be pending on the filing date of the nonprovisional application for the nonprovisional application to claim the benefit of the provisional application.

Section 4807 (Prior Art Exclusion): 35 U.S.C. 103 was amended in 1984 to exclude subject matter developed by another person which qualifies as prior art only under 35 U.S.C. 102(f) or (g) as prior art under 35 U.S.C. 103 against a claimed invention, provided that the subject matter and the claimed invention were commonly owned by the same person or organization or subject to an obligation of assignment to the same person or organization at the time the claimed invention was

made. See Public Law 98-622, Sec. 103, 98 Stat. 3384 (1984). Section 4807 of the "American Inventors Protection Act of 1999" amends 35 U.S.C. 103(c) to exclude subject matter developed by another person which qualifies as prior art only under one or more of 35 U.S.C. 102(e), (f), or (g) as prior art under 35 U.S.C. 103 against a claimed invention, again provided that the subject matter and the claimed invention were commonly owned by the same person or organization or subject to an obligation of assignment to the same person or organization at the time the claimed invention was made. The Office is in the process of developing guidelines concerning the implementation of this change to 35 U.S.C. 103(c).

Discussion of Specific Rules

Title 37 of the Code of Federal Regulations, Part 1, is amended as follows:

Section 1.7 is amended by designating the current text as paragraph (a) and adding a new paragraph (b) to provide that if the day that is twelve months after the filing date of a provisional application under 35 U.S.C. 111(b) and Sec. 1.53(c) falls on Saturday, Sunday, or a Federal holiday within the District of Columbia, the period of pendency shall be extended to the next succeeding secular or business day which is not a Saturday, Sunday, or a Federal holiday.

Section 1.17(e) sets forth the fee to request continued examination pursuant to new Sec. 1.114, which is set at an amount equal to the basic filing fee for a utility application. Therefore, the fee for considering a submission pursuant to Sec. 1.114 is $690.00 ($345.00 for a small entity).

Section 1.17(i) is amended to include a reference to the fee to convert a provisional application filed under Sec. 1.53(c) to a nonprovisional application under Sec. 1.53(b), and to eliminate the reference to Sec. 1.312.

Section 1.53 is amended by redesignating paragraph (c)(3) as paragraph (c)(4) and adding a new paragraph (c)(3) to provide for the conversion of a provisional application to a nonprovisional application. Section 1.53(c)(3) provides that a request to convert a provisional application filed under Sec. 1.53(c) to a nonprovisional application under Sec. 1.53(b) must be accompanied by the fee set forth in Sec. 1.17(i) and an amendment including at least one claim as prescribed by the second paragraph of 35 U.S.C. 112, unless the provisional application otherwise contains at least one claim. Section 1.53(c)(3) also provides that such a request must be filed prior to the earliest of: (1) abandonment of the provisional application; or (2) expiration of twelve months after the filing date of the provisional application. Section 1.53(c)(3) also provides that the conversion of a provisional application to a nonprovisional application will not result in either the refund of any fee properly paid in the provisional application or the application of any such fee to the filing fee, or any other fee, for the nonprovisional application.

The conversion of a provisional application to a nonprovisional application will not result in any savings in filing fees over the filing of a nonprovisional application claiming the benefit under 35 U.S.C. 119(e) and Sec. 1.78 of the earlier provisional application. Thus, an applicant may simply file a nonprovisional application claiming the benefit under 35 U.S.C. 119(e) and Sec. 1.78 of the earlier provisional application and avoid the fee set forth in Sec. 1.17(i) required to convert a provisional application to a nonprovisional application (as well as the adverse patent term effects discussed above).

Section 1.53(d)(1)(i) is amended to provide that continued prosecution application (CPA) practice under Sec. 1.53(d) does not apply to applications (other than design) if the prior application has a filing date on or after May 29, 2000. Thus, an application (except for a design application) must have an actual filing date before May 29, 2000, for the applicant to be able to file a CPA of that application. While the Office uses the filing date (and application number) of the prior application of a CPA for identification purposes, the filing date of a CPA under Sec. 1.53(d) is the date the request for a CPA is filed. See Sec. 1.53(d)(2). Thus, if a CPA of an application (other than for a design patent) is filed on or after May 29, 2000, Sec. 1.53(d)(1)(i) does not permit the filing of a further CPA, regardless of the filing date of the prior application as to the first CPA (i.e., the filing date used for identification purposes for the CPA).

In the event that an applicant files a request for a CPA of a utility or plant application that was filed on or after May 29, 2000 (to which CPA practice no longer applies), the Office will automatically treat the improper CPA as a request for continued examination of the prior application (identified in the request for CPA) under new Sec. 1.114. If an applicant files a request for a CPA of an application to which CPA practice no longer applies and does not want the request for a CPA to be treated as a request for continued examination under Sec. 1.114 (e.g., the CPA is a divisional CPA), the applicant may file a petition under Sec. 1.53(e) requesting that the improper CPA be converted to an application under Sec. 1.53(b). The requirements for such a petition under Sec. 1.53(e) are identical to those set forth in section 201.06(b) of the Manual of Patent Examining Procedure (7th ed.1998) (MPEP) for converting an improper file wrapper continuing (FWC) application under former Sec. 1.62 to an application under Sec. 1.53(b). The Office will not grant such a petition unless it is before the appropriate deciding official before an Office action has been mailed in response to the request for continued examination under Sec. 1.114 (as the improper CPA is being treated). If an Office action has been mailed in response to the request for continued examination under Sec. 1.114, the applicant should simply file an application under Sec. 1.53(b) within the period for reply to such Office action.

Section 1.53(d)(1)(ii)(A) is amended to refer to "Sec. 1.313(c)" rather than "Sec. 1.313(b)(5)" for consistency with the change to Sec. 1.313.

Section 1.78 is amended to eliminate the requirement that a nonprovisional application be "copending" with a provisional application for the nonprovisional application to claim the benefit under 35 U.S.C. 119(e) of a provisional application. Section 1.78 is also amended to require that, for a nonprovisional application to claim the benefit of a provisional application, the provisional application must be entitled to a filing date as set forth in Sec. 1.53(c), and have paid therein the basic filing fee set forth in Sec. 1.16(k) within the time period set forth in Sec. 1.53(g), and have any required English-language translation filed therein within the time period set forth in Sec. 1.52(d).

Section 1.97(b) is amended to indicate that an information disclosure statement will also be considered if it is filed before the mailing of a first Office action after the filing of a request for continued examination under Sec. 1.114.

Section 1.104(c)(4) is revised to replace "35 U.S.C. 102(f) or (g)" with "35 U.S.C. 102(e), (f) or (g)" for consistency with 35 U.S.C. 103(c) as amended by Sec. 4807 of the "American Inventors Protection Act of 1999."

Section 1.113 is amended to take into account that an applicant's after final reply options include filing a request for continued examination under Sec. 1.114. Section 1.113 is also amended to locate the last two sentences of paragraph (a) in a new paragraph (c).

Section 1.114 is added to implement Sec. 4403 of the "American Inventors Protection Act of 1999." The Office is providing a procedure under which an applicant may obtain continued examination of an application by filing a submission and paying a specified fee, even if the application is under a final rejection, appeal, or a notice of allowance. If a subsequent rejection or action is made final (or if the application is subsequently allowed), the applicant may again obtain continued examination of an application (consideration of a submission) upon the filing of a submission and an additional payment of the specified fee prior to abandonment of the application. This procedure will not be available for: (1) a provisional application (which is not examined under 35 U.S.C. chapter 12); (2) an application for a utility or plant patent filed under 35 U.S.C. 111(a) before June 8, 1995; (3) an international application filed under 35 U.S.C. 363 before June 8, 1995; (4) an application for a design patent; or (5) a patent under reexamination.

Under this procedure, the filing of a request for continued examination after the filing of a Notice of Appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal, will be considered a request to withdraw the appeal and to reopen prosecution of the application before the examiner. The filing of a request for continued examination (accompanied by the fee and a submission) after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit (Federal Circuit) or the commencement of a civil action, will also result in the finality of the rejection or action being withdrawn and the submission being considered.

In addition to the res judicata effect of a Board of Patent Appeals and Interferences decision in an application (see MPEP 706.03(w)), a Board of Patent Appeals and Interferences decision in an application is the "law of the case," and is thus controlling in that application and any subsequent related application. See MPEP 1214.01 (where a new ground of rejection is entered by the Board of Patent Appeals and Interferences pursuant to Sec. 1.196(b), argument without either amendment of the claims so rejected or the submission of a showing of facts can only result in a final rejection of the claims, since the examiner is without authority to allow the claims unless amended or unless the rejection is overcome by a showing of facts not before the Board of Patent Appeals and Interferences). As such, a submission containing arguments without either amendment of the rejected claims or the submission of a showing of facts will not be effective to remove such rejection.

The procedure set forth in Sec. 1.114 will not be available in an application after the filing of a Notice of Appeal to the Federal Circuit or the commencement of a civil action, unless the appeal or civil action is terminated and the application is still pending. Unless an application contains allowed claims (or the court's mandate clearly indicates that further action is to be taken in the Office), the termination of an unsuccessful court appeal or civil action results in the abandonment of the application. See MPEP 1216.01.

If the application is under final rejection, the fee acts only to withdraw the finality of an Office action. If reply to a final or non- final Office action is outstanding, a submission meeting the reply requirements of Sec. 1.111 must be timely received to continue prosecution of an application. Put simply, the mere payment of the fee for continued examination will not operate to toll the running of any time period set in the previous Office action for reply to avoid abandonment of the application. Likewise, payment of the fee (and a submission) in an allowed application without a petition under Sec. 1.313 to withdraw the application from issue will not operate to toll the period for payment of the issue fee (if running) or avoid issuance of the application as a patent (if the issue fee has been paid).

To avoid confusion as to whether an applicant desires to amend the application prior to receiving continued examination of the application, an appeal brief under Sec. 1.192 or a reply brief under Sec. 1.193(b), or related submissions, are expressly excluded as a submission for the purposes of Sec. 1.114. The submission, however, may consist of the arguments in a previously filed appeal brief or reply brief submitted as a reply to the final rejection, or may simply consist of a submission that incorporates by reference the arguments in a previously filed appeal brief or reply brief.

35 U.S.C. 132 provides that "[n]o amendment shall introduce new matter into the disclosure of the invention." Any amendment entered pursuant to Sec. 1.114 that is determined to contain new matter will be treated in the same manner that a reply under Sec. 1.111 determined to contain new matter is currently treated. In those instances in which an applicant seeks to add new matter to the disclosure of an application, the procedure in Sec. 1.114 is not available, and the applicant must file a continuation-in-part application under Sec. 1.53(b) containing such new matter. In addition, as 35 U.S.C. 132(b) and Sec. 1.114 provide continued examination of an application (and not examination of a continuing application), the Office will not permit an applicant to obtain continued examination on the basis of claims that are independent and distinct from the claims previously claimed and examined (see Sec. 1.145).

The request for continued examination procedure in Sec. 1.114 should not be confused with the transitional procedure for the further limited examination of patent applications set forth in Sec. 1.129(a) (see Changes to Implement 20-Year Patent Term and Provisional Applications, Final Rule Notice, 60 FR 20195 (April 25, 1995), 1174 Off. Gaz. Pat. Office 15 (May 2, 1995)) or the continued prosecution application (CPA) procedure set forth in Sec. 1.53(d) (see Changes to Patent Practice and Procedure; Final Rule Notice, 62 FR 53131 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63 (October 21, 1997)).

Comparison of the request for continued examination procedure in Sec. 1.114 with the transitional procedure for the further limited examination of patent application set forth in Sec. 1.129(a): The procedure set forth in this notice does not apply to any application that was filed prior to June 8, 1995. The transitional procedure set forth in Sec. 1.129(a) applies only to applications, other than for reissue or design patent, that have been pending for at least two years as of June 8, 1995, taking into account any references in such applications to any earlier filed application under 35 U.S.C. 120, 121, or 365(c), and is not applicable to any application filed after June 8, 1995. Therefore, an application eligible for the transitional procedure set forth in Sec. 1.129(a) (unless filed on June 8, 1995), or any application filed before June 8, 1995, is not eligible for the procedure for continued examination set forth in this notice.

In addition, an applicant in an application eligible for the procedure for continued examination set forth in this notice is not limited in the number of times the fee for continued examination may be submitted. An applicant in an application eligible for the transitional procedure set forth in Sec. 1.129(a), however, is limited to two opportunities to pay the fee for further examination of the application.

Moreover, under the transitional procedure set forth in Sec. 1.129(a), a submission after final rejection or action will be considered if the submission and the requisite fee are filed prior to abandonment of the application and prior to the filing of an appeal brief. Under the request for continued examination procedure set forth in this notice, a submission will be considered if the submission and the requisite fee is filed prior to abandonment of the application. That is, under the request for continued examination procedure, a submission (and requisite fee) need not be filed prior to the filing of an appeal brief. In addition, under the request for continued examination procedure, a submission will be considered in an allowed application if the submission and the requisite fee are filed prior to payment of the issue fee (or later if a petition under Sec. 1.313(c) to withdraw the application from issue is granted).

Comparison of the request for continued examination procedure in Sec. 1.114 with the CPA procedure set forth in Sec. 1.53(d): Section 1.53(d) is amended to make CPA practice inapplicable to applications (other than for a design patent) filed under 35 U.S.C. 111(a) on or after May 29, 2000, or resulting from international applications filed under 35 U.S.C. 363 on or after May 29, 2000. CPA practice was adopted to permit applicants to obtain continued examination of an application (for a fee) via the filing of a continuing application. 35 U.S.C. 132(b), however, provides statutory authority for the Office to prescribe regulations to permit applicants to obtain continued examination of an application (for a fee) without the need for a continuing application. The Office is not completely abolishing CPA practice in favor of the request for continued examination practice in Sec. 1.114 because the request for continued examination practice in Sec. 1.114 is not applicable to applications filed before June 8, 1995 (or design applications), and the patent term adjustment provisions of Public Law 106-113 do not apply to applications filed before May 29, 2000. The Office, however, is restricting CPA practice to utility and plant applications filed before May 29, 2000, and design applications because maintaining two practices (as to applications eligible for the continued examination procedure of Sec. 1.114) designed for the same purpose (obtaining continued examination of an application) is unnecessary and will result in confusion.

Since the request for continued examination practice in Sec. 1.114 is applicable to utility and plant applications filed on or after June 8, 1995, and continued prosecution application (CPA) practice in Sec. 1.53(d) is applicable to utility and plant applications filed before May 29, 2000 (and design applications), an applicant in a utility or plant application filed on or after June 8, 1995, but before May 29, 2000, may obtain further examination either by filing a request for continued examination under Sec. 1.114 or by filing a CPA under Sec. 1.53(d). Since the patent term adjustment provisions of Public Law 106-113 do not apply to applications filed before May 29, 2000, and a request for continued examination practice under Sec. 1.114 (unlike a CPA under Sec. 1.53(d)) is not the filing of a new application, whether further examination of such an application is sought by a request for continued examination under Sec. 1.114 or a CPA under Sec. 1.53(d) has an impact on whether any resulting patent is entitled to the patent term adjustment provisions of Public Law 106-113. Specifically, if an applicant in a utility or plant application filed before May 29, 2000 files a CPA under Sec. 1.53(d) after May 29, 2000, the application being prosecuted (now a CPA) is an application filed on or after May

29, 2000 and is entitled to the patent term adjustment provisions of Public Law 106-113. If, however, an applicant in a utility or plant application filed before May 29, 2000 (but on or after June 8, 1995) files a request for continued examination under Sec. 1.114, the application being prosecuted is not an application filed on or after May 29, 2000, and is not entitled to the patent term adjustment provisions of Public Law 106-113.

In addition, there are a number of additional differences between request for continued examination procedure set forth in this notice with the CPA procedure set forth in Sec. 1.53(d) resulting from the fact that a CPA is the filing of a new application whereas continued examination under Sec. 1.114 merely continues the examination of the same application: (1) the fee for continued examination under Sec. 1.114 (Sec. 1.17(e)) does not include additional claims fees (cf. 1.53(d)(3)(ii)); (2) the fee for continued examination under Sec. 1.114 may not be deferred (cf. Sec. 1.53(f)); (3) a request for continued examination under Sec. 1.114 is entitled to the benefit of a certificate of mailing under Sec. 1.8 (cf. 1.8(a)(2)(i)(A)); (4) an applicant may not obtain examination of a different or non-elected invention (e.g., a divisional) in a request for continued examination under Sec. 1.114; and (5) any change of inventors must be via the procedure set forth in Sec. 1.48 (cf. 1.53(d)(4)).

Discussion of the specific provisions of new Sec. 1.114: Section 1.114 is added to provide for continued examination of an application under 35 U.S.C. 132(b).

Section 1.114(a) provides that an applicant may obtain continued examination of an application by filing a submission and the fee set forth in Sec. 1.17(e) prior to the earliest of: (1) payment of the issue fee, unless a petition under Sec. 1.313 is granted; (2) abandonment of the application; or (3) the filing of a notice of appeal to the U.S. Court of Appeals for the Federal Circuit under 35 U.S.C. 141, or the commencement of a civil action under 35 U.S.C. 145 or 146, unless the appeal or civil action is terminated. The action immediately subsequent to the filing of a submission and fee under Sec. 1.114 may be made final only if the conditions set forth in MPEP 706.07(b) for making a first action final in a continuing application are met.

Section 1.114(b) provides that a submission as used in Sec. 1.114 includes, but is not limited to, an information disclosure statement, an amendment to the written description, claims, or drawings, new arguments, or new evidence in support of patentability. This definition in Sec. 1.114 for "submission" is taken from Sec. 1.129(a). Section 1.114(b) also provides that if reply to a final or non-final Office action under 35 U.S.C. 132 is outstanding, the submission must meet the reply requirements of Sec. 1.111. This will permit applicants to file a submission under Sec. 1.114 containing only an information disclosure statement (Secs. 1.97 and 1.98) in an application subject to a notice of allowance under 35 U.S.C. 151.

Section 1.114(c) provides that if an applicant timely files the fee set forth in Sec. 1.17(e) and a submission, the Office will withdraw the finality of any Office action to which a reply is outstanding and the submission will be entered and considered. The phrase "withdraw the finality of any Office action" includes the withdrawal of the finality of a final rejection, as well as the closing of prosecution by an Office action under Ex parte Quayle, 1935 Comm'r Dec. 11 (1935), or notice of allowance under 35 U.S.C. 151 (or notice of allowability). Section 1.114(c) also provides that if an applicant files a request for continued examination under Sec. 1.114 after appeal, but prior to a decision on the appeal, it will be treated as a request to withdraw the appeal and to reopen prosecution of the application before the examiner. Thus, the filing of a request for continued examination under Sec. 1.114 in an application containing an appeal awaiting decision after appeal will be treated as a withdrawal of the appeal by the applicant, regardless of whether the request for continued examination under Sec. 1.114 includes the appropriate fee (Sec. 1.17(e)) or a submission (Sec. 1.114(b)). Applicants should advise the Board of Patent Appeals and Interferences when a request for continued examination under Sec. 1.114 is filed in an application containing an appeal awaiting decision. Otherwise, the Board of Patent Appeals and Interferences may refuse to vacate a decision rendered after the filing (but before recognition by the Office) of a request for continued examination under Sec. 1.114. Section 1.114(c) also provides that an appeal brief or a reply brief (or related papers) will not be considered submission under Sec. 1.114 (discussed above).

Section 1.114(d) provides that an applicant cannot request continued examination of an application until after the Office acts on the application by mailing at least one of an Office action under 35 U.S.C. 132 or a notice of allowance under 35 U.S.C. 151. Section 1.114(d) also provides that the request for continued examination provisions of Sec. 1.114 do not apply to: (1) a provisional application; (2) an application for a utility or plant patent filed under 35 U.S.C. 111(a) before June 8, 1995; (3) an international application filed under 35 U.S.C. 363 before June 8, 1995; (4) an application for a design patent; or (5) a patent under reexamination.

Section 1.116 is amended to add a paragraph (a) that takes into account that an applicant's after final amendment options include filing a request for continued examination under Sec. 1.114, and to redesignate existing paragraphs (a), (b), and (c) as paragraphs (b), (c), and (d), respectively.

Section 1.198 is amended to take into account that an application in which an appeal has been decided by the Board of Patent Appeals and Interferences may also be reopened under the request for continued examination provisions of Sec. 1.114.

Section 1.312 is amended based upon previously proposed changes to that section. See Changes to Implement the Patent Business Goals, Notice of Proposed Rulemaking, 64 FR 53772, 53810, 53838 (October 4, 1999), 1228 Off. Gaz. Pat. Office 15, 49, 76 (November 2, 1999). These changes are being adopted in this interim rule because of the overlap between the continued examination provisions of new Sec. 1.114 and the withdrawal from issue provisions of Sec. 1.313 (which in turn overlaps with the provisions of Sec. 1.312).

The Office proposed changing Sec. 1.312 to provide that any amendment filed after the date the issue fee is paid must be accompanied by: (1) A petition under Sec. 1.313(c)(1) to withdraw the application from issue; (2) an unequivocal statement that one or more claims are unpatentable; and (3) an explanation as to how the amendment is necessary to render such claim or claims patentable. The Office is adopting this change to Sec. 1.312 by clarifying that an amendment under Sec. 1.312 (after allowance) must be filed prior to or with payment of the issue fee, and eliminating Sec. 1.312(b) (since the provisions of proposed Sec. 1.312(b) are duplicative of the provisions of proposed and adopted Sec. 1.313(c)(1)).

Section 1.313 is amended to provide that an application may also be withdrawn from issue after payment of the issue fee on petition by the applicant for consideration of a submission pursuant to Sec. 1.114. Section 1.313, as amended, also adopts previously proposed changes to that section. See Changes to Implement the Patent Business Goals, 64 FR at 53810-11, 53838-39, 1228 Off. Gaz. Pat. Office at 49-50, 76-77.

Of the comments submitted in response to that notice of proposed rulemaking, three comments addressed the proposed changes to Secs. 1.312 and 1.313.

Comment (1): One comment addressing the proposed change to Sec. 1.313 favored the proposed change to Sec. 1.313, but suggested that Sec. 1.313(c) and Sec. 1.53(d) be amended to clarify that an application may be withdrawn from issue after payment of the issue fee for express abandonment in favor of a continued prosecution application (CPA) under Sec. 1.53(d). The comment also suggested that the Office provide a notice of rule change to accompany the notice of allowance for some time after adoption of the change to provide further notice to the public of the rule change.

Response: Section 1.53(d)(1)(ii)(A) as amended provides that a CPA under Sec. 1.53(d) must be filed prior to payment of the issue fee on the prior application unless a petition under Sec. 1.313(c) is granted in the prior application. Since a CPA under Sec. 1.53(d) is a continuing application, there is no need to amend Sec. 1.313(c) to specifically refer to a CPA. Specifically referring to a CPA under Sec. 1.53(d) in Sec. 1.313(c) may result in confusion because: (1) An application may be withdrawn from issue after payment of the issue fee for express abandonment (without the filing of any type of continuing application); (2) an application may also be withdrawn from issue after payment of the issue fee for express abandonment in favor of a continuing application under Sec. 1.53(b); and (3) an application may be withdrawn from issue after payment of the issue fee for continued examination under Sec. 1.114 (if eligible for that practice). The suggestion con-

cerning the notice of rule change will be taken into account in preparing training materials related to the implementation of the rule changes related to the Patent Business Goals and the "American Inventors Protection Act of 1999."

Comment (2): Two comments addressing the proposed change to Sec. 1.313 suggested that the conditions under which an applicant could withdraw an application from issue after payment of the issue fee was too limited, and that Sec. 1.313 should not preclude a request to withdraw an application from issue when reasonably efficient processing could prevent the patent from issuing without having some important matter considered.

Response: The Office must limit withdrawal from issue after payment of the issue fee (at applicant's initiative) to those conditions specified in Sec. 1.313(c) due to changes to the patent printing process, which will dramatically reduce the period between the date of issue fee payment and the date a patent is issued. An applicant who must have an important matter considered by the Office before a patent is issued must file a petition under Sec. 1.313(c) to withdraw the application from issue to have such matter considered during continued examination under Sec. 1.114 (if eligible) or in a continuing application, unless the applicant can meet the conditions specified in Sec. 1.313(c)(1).

The Office cannot ensure that any petition under Sec. 1.313(c) will be acted upon prior to the date of patent grant. See Filing of Continuing Applications, Amendments, or Petitions after Payment of Issue Fee, Notice, 1221 Off. Gaz. Pat. Office 14 (April 6, 1999). Since a request for continued examination under Sec. 1.114 (unlike a CPA under Sec. 1.53(d)) is not any type of new application filing, the Office cannot grant a petition to convert an untimely request for continued examination under Sec. 1.114 to a continuing application under Sec. 1.53(b). Therefore, applicants are strongly cautioned to file any desired request for continued examination under Sec. 1.114 prior to payment of the issue fee. In addition, applicants considering filing a request for continued examination under Sec. 1.114 after payment of the issue fee are strongly cautioned to call the Office of Petitions to determine whether sufficient time remains before the patent issue date to consider (and grant) a petition under Sec. 1.313(c) and what steps are needed to ensure that a grantable petition under Sec. 1.313(c) is before an appropriate official in the Office of Petitions in sufficient time to grant the petition before the patent is issued. Finally, applicants filing a request for continued examination under Sec. 1.114 after allowance but prior to payment of the issue fee are cautioned against subsequently paying the issue fee because doing so may result in the prompt issuance of a patent.

Classification

Administrative Procedure Act

The changes in this interim rule concern only the manner by which an applicant obtains continued examination of a nonprovisional application, requests conversion of a provisional application into a nonprovisional application, or claims the benefit of a provisional application, as provided for in Secs. 4403 and 4801 of the "American Inventors Protection Act of 1999" (Title IV of S. 1948, incorporated into Pub. L. 106-113). Therefore, prior notice and an opportunity for public comment are not required pursuant to 5 U.S.C. 553(b)(A), or any other law.

Regulatory Flexibility Act

As prior notice and an opportunity for public comment are not required pursuant to 5 U.S.C. 553 (or any other law), the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) are inapplicable.

Executive Order 13132

This interim rule does not contain policies with federalism implications sufficient to warrant preparation of a Federalism Assessment under Executive Order 13132 (August 4, 1999).

Executive Order 12866

This interim rule has been determined to be not significant for purposes of Executive Order 12866 (September 30, 1993).

Paperwork Reduction Act

This interim rule involves information collection requirements which are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). The collections of information involved in this interim rule have been reviewed and previously approved by OMB under the following control numbers: 0651-0031, 0651-0032, and 0651-0033. The United States Patent and Trademark Office is not resubmitting information collection packages to OMB for its review and approval because the changes in this interim rule do not affect the information collection requirements associated with the information collections under these OMB control numbers.

The title, description and respondent description of each of the information collections are shown below with an estimate of each of the annual reporting burdens. Included in each estimate is the time for reviewing instructions, gathering and maintaining the data needed, and completing and reviewing the collection of information. The principal impact of the changes in this interim rule is to implement the changes to Office practice necessitated by sections 4403, 4801, and 4807 of the "American Inventors Protection Act of 1999."

OMB Number: 0651-0031.

Title: Patent Processing (Updating).

Form Numbers: PTO/SB/08/21-27/31/42/43/61/62/63/64/67/68/91/92/96/ 97.

Type of Review: Approved through October of 2002.

Affected Public: Individuals or Households, Business or Other For- Profit Institutions, Not-for-Profit Institutions and Federal Government.

Estimated Number of Respondents: 2,040,630.

Estimated Time Per Response: 0.39 hours.

Estimated Total Annual Burden Hours: 788,421 hours.

Needs and Uses: During the processing for an application for a patent, the applicant/agent may be required or desire to submit additional information to the United States Patent and Trademark Office concerning the examination of a specific application.

The specific information required or which may be submitted includes: Information Disclosure Statements; Terminal Disclaimers; Petitions to Revive; Express Abandonments; Appeal Notices; Petitions for Access; Powers to Inspect; Certificates of Mailing or Transmission; Statements under Sec. 3.73(b); Amendments, Petitions and their Transmittal Letters; and Deposit Account Order Forms.

OMB Number: 0651-0032.

Title: Initial Patent Application.

Form Number: PTO/SB/01-07/13PCT/17-19/29/101-110.

Type of Review: Approved through October of 2002.

Affected Public: Individuals or Households, Business or Other For- Profit, Not-for-Profit Institutions and Federal Government.

Estimated Number of Respondents: 344,100.

Estimated Time Per Response: 8.7 hours.

Estimated Total Annual Burden Hours: 2,994,160 hours.

Needs and Uses: The purpose of this information collection is to permit the United States Patent and Trademark Office to determine whether an application meets the criteria set forth in the patent statute and regulations.

The standard Fee Transmittal form, New Utility Patent Application Transmittal form, New Design Patent Application Transmittal form, New Plant Patent Application Transmittal form, Declaration, and Plant Patent Application Declaration will assist applicants in complying with the requirements of the patent statute and regulations, and will further assist the United States Patent and Trademark Office in processing and examination of the application.

OMB Number: 0651-0033.

Title: Post Allowance and Refiling.

Form Numbers: PTO/SB/13/14/44/50-57; PTOL-85b.

Type of Review: Approved through September of 2000.

Affected Public: Individuals or Households, Business or Other For- Profit, Not-for-Profit Institutions and Federal Government.

Estimated Number of Respondents: 135,250.

Estimated Time Per Response: 0.325 hour.

Estimated Total Annual Burden Hours: 43,893 hours.

Needs and Uses: This collection of information is required to administer the patent laws pursuant to title 35, U.S.C., concerning the issuance of patents and related actions including correcting errors in printed patents, refiling of patent applications, requesting reexamination of a patent, and requesting a reissue patent to correct an error in a patent. The affected public includes any individual or institution whose application for a patent has been allowed or who takes action as covered by the applicable rules.

Comments are invited on: (1) Whether the collection of information is necessary for proper performance of the functions of the agency; (2) the accuracy of the agency's estimate of the burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information to respondents.

Interested persons are requested to send comments regarding these information collections, including suggestions for reducing this burden, to Robert J. Spar, Director, Special Program Law Office, United States Patent and Trademark Office, Washington, D.C. 20231, or to the Office of Information and Regulatory Affairs, OMB, 725 17th Street, N.W., Washington, D.C. 20503, (Attn: PTO Desk Officer).

Notwithstanding any other provision of law, no person is required to respond to nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB control number.

List of Subjects in 37 CFR Part 1

Administrative practice and procedure, Courts, Freedom of information, Inventions and patents, Reporting and recordkeeping requirements, Small businesses.

For the reasons set forth in the preamble, 37 CFR Part 1 is amended as follows:

PART 1—RULES OF PRACTICE IN PATENT CASES

1. The authority citation for 37 CFR Part 1 is revised to read as follows:

Authority: 35 U.S.C. 2(b)(2), unless otherwise noted.

2. Section 1.7 is revised to read as follows:

Sec. 1.7 Times for taking action; Expiration on Saturday, Sunday or Federal holiday.

(a) Whenever periods of time are specified in this part in days, calendar days are intended. When the day, or the last day fixed by statute or by or under this part for taking any action or paying any fee in the United States Patent and Trademark Office falls on Saturday, Sunday, or on a Federal holiday within the District of Columbia, the action may be taken, or the fee paid, on the next succeeding business day which is not a Saturday, Sunday, or a Federal holiday. See Sec. 1.304 for time for appeal or for commencing civil action.

(b) If the day that is twelve months after the filing date of a provisional application under 35 U.S.C. 111(b) and Sec. 1.53(c) falls on Saturday, Sunday, or on a Federal holiday within the District of Columbia, the period of pendency shall be extended to the next succeeding secular or business day which is not a Saturday, Sunday, or a Federal holiday.

3. Section 1.17 is amended by adding paragraph (e) and revising paragraph (i) to read as follows:

Sec. 1.17 Patent application processing fees.

*****

(e) To request continued examination pursuant to Sec. 1.114:
By a small entity 345.00
By other than a small entity 690.00

*****

(i) For filing a petition to the Commissioner under one of the following sections which refers to this paragraph 130.00
Sec. 1.12—for access to an assignment record.
Sec. 1.14—for access to an application.
Sec. 1.41—to supply the name or names of the inventor or inventors after the filing date without an oath or declaration as prescribed by Sec. 1.63, except in provisional applications.
Sec. 1.47—for filing by other than all the inventors or a person not the inventor.
Sec. 1.48—for correction of inventorship, except in provisional applications.
Sec. 1.53—to accord a filing date, except in provisional applications.
Sec. 1.53(c)—to convert a provisional application filed under Sec. 1.53(c) to a nonprovisional application under Sec. 1.53(b).
Sec. 1.55—for entry of late priority papers.
Sec. 1.59—for expungement and return of information.
Sec. 1.84—for accepting color drawings or photographs.
Sec. 1.91—for entry of a model or exhibit.
Sec. 1.97(d)—to consider an information disclosure statement.
Sec. 1.102—to make an application special.
Sec. 1.103—to suspend action in application.
Sec. 1.177—for divisional reissues to issue separately.
Sec. 1.313—to withdraw an application from issue.
Sec. 1.314—to defer issuance of a patent.
Sec. 1.666(b)—for access to an interference settlement agreement.
Sec. 3.81—for a patent to issue to assignee, assignment submitted after payment of the issue fee.

4. Section 1.53 is amended by redesignating paragraph (c)(3) as paragraph (c)(4), adding a new paragraph (c)(3), and revising paragraph (d)(1) to read as follows:

Sec. 1.53 Application number, filing date, and completion of application.

*****

(c) * * *

(3) A provisional application filed under paragraph (c) of this section may be converted to a nonprovisional application filed under paragraph (b) of this section and accorded the original filing date of the provisional application. The conversion of a provisional application to a nonprovisional application will not result in either the refund of any fee properly paid in the provisional application or the application of any such fee to the filing fee, or any other fee, for the nonprovisional application. A request to convert a provisional application to a nonprovisional application must be accompanied by the fee set forth in Sec. 1.17(i) and an amendment including at least one claim as prescribed by the second paragraph of 35 U.S.C. 112, unless the provisional application under paragraph (c) of this section otherwise contains at least one claim as prescribed by the second paragraph of 35 U.S.C. 112. A request to convert a provisional application to a nonprovisional application must also be filed prior to the earliest of:

(i) Abandonment of the provisional application filed under paragraph (c) of this section; or

(ii) Expiration of twelve months after the filing date of the provisional application filed under paragraph (c) of this section.

*****

(d) * * *

(1) A continuation or divisional application (but not a continuation-in-part) of a prior nonprovisional application may be filed as a continued prosecution application under this paragraph, provided that:

(i) The prior nonprovisional application is:

(A) A utility or plant application that was filed under 35 U.S.C. 111(a) before May 29, 2000, and is complete as defined by Sec. 1.51(b);

(B) A design application that is complete as defined by Sec. 1.51(b); or

(C) The national stage of an international application that was filed under 35 U.S.C. 363 before May 29, 2000, and is in compliance with 35 U.S.C. 371; and

(ii) The application under this paragraph is filed before the earliest of:

(A) Payment of the issue fee on the prior application, unless a petition under Sec. 1.313(c) is granted in the prior application;

(B) Abandonment of the prior application; or

(C) Termination of proceedings on the prior application.

*****

Section 1.78 is amended by revising paragraph (a)(3) to read as follows:

Sec. 1.78 Claiming benefit of earlier filing date and cross-references to other applications.

(a) * * *

(3) A nonprovisional application other than for a design patent may claim an invention disclosed in one or more prior filed provisional applications. In order for a nonprovisional application to claim the benefit of one or more prior filed provisional applications, each prior provisional application must name as an inventor at least one inventor named in the later filed nonprovisional application and disclose the named inventor's invention claimed in at least one claim of the later filed nonprovisional application in the manner provided by the first paragraph of 35 U.S.C. 112. In addition, each prior provisional application must be entitled to a filing date as set forth in Sec. 1.53(c), have any required English-language translation filed therein within the time period set forth in Sec. 1.52(d), and have paid therein the basic filing fee set forth in Sec. 1.16(k) within the time period set forth in Sec. .1.53(g).

*****

5. Section 1.97 is amended by revising paragraph (b) to read as follows:

Sec. 1.97 Filing of information disclosure statement.

*****

(b) An information disclosure statement shall be considered by the Office if filed by the applicant within any one of the following time periods:

(1) Within three months of the filing date of a national application;

(2) Within three months of the date of entry of the national stage as set forth in Sec. 1.491 in an international application;

(3) Before the mailing of a first Office action on the merits; or

(4) Before the mailing of a first Office action after the filing of a request for continued examination under Sec. 1.114.

*****

6. Section 1.104 is amended by revising paragraph (c)(4) to read as follows:

Sec. 1.104 Nature of examination.

*****

(c) * * *

(4) Subject matter which is developed by another person which qualifies as prior art only under 35 U.S.C. 102(e), (f) or (g) may be used as prior art under 35 U.S.C. 103 against a claimed invention unless the entire rights to the subject matter and the claimed invention were commonly owned by the same person or organization or subject to an obligation of assignment to the same person or organization at the time the claimed invention was made.

*****

7. Section 1.113 is revised to read as follows:

Sec. 1.113 Final rejection or action.

(a) On the second or any subsequent examination or consideration by the examiner the rejection or other action may be made final, whereuponapplicant's or patent owner's reply is limited to appeal in the case of rejection of any claim (Sec. 1.191), or to amendment as specified in Sec. 1.114 or Sec. 1.116. Petition may be taken to the Commissioner in the case of objections or requirements not involved in the rejection of any claim (Sec. 1.181). Reply to a final rejection or action must comply with Sec. 1.114 or paragraph (c) of this section.

(b) In making such final rejection, the examiner shall repeat or state all grounds of rejection then considered applicable to the claims in the application, clearly stating the reasons in support thereof.

(c) Reply to a final rejection or action must include cancellation of, or appeal from the rejection of, each rejected claim. If any claim stands allowed, the reply to a final rejection or action must comply with any requirements or objections as to form.

8. Section 1.114 is added immediately following Sec. 1.113 to read as follows:

Sec. 1.114 Request for continued examination.

(a) An applicant may request continued examination of the application by filing a submission and the fee set forth in Sec. 1.17(e) prior to the earliest of:

(1) Payment of the issue fee, unless a petition under Sec. 1.313 is granted;

(2) Abandonment of the application; or

(3) The filing of a notice of appeal to the U.S. Court of Appeals for the Federal Circuit under 35 U.S.C. 141, or the commencement of a civil action under 35 U.S.C. 145 or 146, unless the appeal or civil action is terminated.

(b) A submission as used in this section includes, but is not limited to, an information disclosure statement, an amendment to the written description, claims, or drawings, new arguments, or new evidence in support of patentability. If reply to an Office action under 35 U.S.C. 132 is outstanding, the submission must meet the reply requirements of Sec. 1.111.

(c) If an applicant timely files a submission and fee set forth in Sec. 1.17(e), the Office will withdraw the finality of any Office action and the submission will be entered and considered. If an applicant files a request for continued examination under this section after appeal, but prior to a decision on the appeal, it will be treated as a request to withdraw the appeal and to reopen prosecution of the application before the examiner. An appeal brief under Sec. 1.192 or a reply brief under Sec. 1.193(b), or related papers, will not be considered a submission under this section.

(d) The provisions of this section do not apply in any application in which the Office has not mailed at least one of an Office action under 35 U.S.C. 132 or a notice of allowance under 35 U.S.C. 151. The provisions of this section also do not apply to:

(1) A provisional application;

(2) An application for a utility or plant patent filed under 35 U.S.C. 111(a) before June 8, 1995;

(3) An international application filed under 35 U.S.C. 363 before June 8, 1995;

(4) An application for a design patent; or

(5) A patent under reexamination.

9. Section 1.116 is revised to read as follows:

Sec. 1.116 Amendments after final action or appeal.

(a) An amendment after final action or appeal must comply with Sec. 1.114 or this section.

(b) After a final rejection or other final action (Sec. 1.113), amendments may be made canceling claims or complying with any requirement of form expressly set forth in a previous Office action. Amendments presenting rejected claims in better form for consideration on appeal may be admitted. The admission of, or refusal to admit, any amendment after final rejection, and any related proceedings, will not operate to relieve the application or patent under reexamination from its condition as subject to appeal or to save the application from abandonment under Sec. 1.135.

(c) If amendments touching the merits of the application or patent under reexamination are presented after final rejection, or after appeal has been taken, or when such amendment might not otherwise be proper, they may be admitted upon a showing of good and sufficient reasons why they are necessary and were not earlier presented.

(d) No amendment can be made as a matter of right in appealed cases. After decision on appeal, amendments can only be made as provided in Sec. 1.198, or to carry into effect a recommendation under Sec. 1.196.

10. Section 1.198 is revised to read as follows:

Sec. 1.198 Reopening after decision.

Cases which have been decided by the Board of Patent Appeals and Interferences will not be reopened or reconsidered by the primary examiner except under the provisions of Sec. 1.114 or Sec. 1.196 without the written authority of the Commissioner, and then only for the consideration of matters not already adjudicated, sufficient cause being shown.

11. Section 1.312 is revised to read as follows:

Sec. 1.312 Amendments after allowance.

No amendment may be made as a matter of right in an application after the mailing of the notice of allowance. Any amendment filed pursuant to this section must be filed before or with the payment of the issue fee, and may be entered on the recommendation of the primary examiner, approved by the Commissioner, without withdrawing the application from issue.

12. Section 1.313 is revised to read as follows:

Sec. 1.313 Withdrawal from issue.

(a) Applications may be withdrawn from issue for further action at the initiative of the Office or upon petition by the applicant. To request that the Office withdraw an application from issue, applicant must file a petition under this section including the fee set forth in Sec. 1.17(i) and a showing of good and sufficient reasons why withdrawal of the application is necessary. If the Office withdraws the application from issue, the Office will issue a new notice of allowance if the Office again allows the application.

(b) Once the issue fee has been paid, the Office will not withdraw the application from issue at its own initiative for any reason except:

(1) A mistake on the part of the Office;

(2) A violation of Sec. 1.56 or illegality in the application;

(3) Unpatentability of one or more claims; or

(4) For interference.

(c) Once the issue fee has been paid, the application will not be withdrawn from issue upon petition by the applicant for any reason except:

(1) Unpatentability of one of more claims, which petition must be accompanied by an unequivocal statement that one or more claims are unpatentable, an amendment to such claim or claims, and an explanation as to how the amendment causes such claim or claims to be patentable;

(2) Consideration of a submission pursuant to Sec. 1.114; or

(3) Express abandonment of the application. Such express abandonment may be in favor of a continuing application.

(d) A petition under this section will not be effective to withdraw the application from issue unless it is actually received and granted by the appropriate officials before the date of issue. Withdrawal of an application from issue after payment of the issue fee may not be effective to avoid publication of application information.

*** Includes turnaround times for files on Official Search and File Reconstruction.**

During the month of February 2000, a total of 20,932 public orders (33,261 copies) were filled and closed, or 9,619 orders more (5,530 copies less) than the FY-00 planning number of 11,313 orders (38,791 copies) to be closed for this month. The average turnaround times for products remain in expected ranges.

Due to varying availability of media, customers will not be advised when orders are not delivered within the published goal periods. However, customers will be advised if any unexpected delay in their order has been identified. Customers should use the above actual days to mail for each product as a guide as to when they can expect their orders. In determining expected delivery times, the day an order is received in the Office is calculated as "day zero." The next business day is "day one."

Customers are encouraged to fax orders for copies directly to Document Services Division at (703) 308-9759 and to pay by PTO Deposit Account, MasterCard, Visa, American Express or Discover. Copy orders also may be placed through the Internet by accessing the PTO home page at *www.uspto.gov* and selecting the "Order Copies" option. Information on the status of pending orders may be obtained by calling (703) 308-9726 or 1 (800) 972-6382 (outside the Washington, DC Metro area), or via E-mail: dsd@uspto.gov.

ASSIGNMENT SERVICES

The Assignment Division is currently mailing recordation notices for documents received in the Office of Public Records on November 22, 1999. The cycle time to process, record, and mail notices is 89 claendar days.

Guidelines Concerning the Implementation of Changes to 35 USC 102(g) and 103(c) and the Interpretation of the Term "Original Application" in the American Inventors Protection Act of 1999

On November 29, 1999, the American Inventors Protection Act of 1999 (hereinafter "Act") was enacted.[1] This notice addresses several of the changes created by the Act which do not require rulemaking to implement. First, the Patent and Trademark Office (PTO) is hereby setting forth guidelines to establish its interpretation of the changes made to 35 U.S.C.

102(g) and 103(c). Second, the PTO is hereby setting forth an interpretation of the term "original application" to clarify the application of the Option Inter Partes Reexamination Procedure created in Subtitle F of the Act. Further, this notice instructs patent examiners and the public on how to implement these changes and addresses situations that are anticipated to arise in the future.

An O.G. notice stating the PTO's interpretation of 35 U.S.C. 102(e) as amended by the Act is expected to be published in the near future. The notice will also include guidelines for implementing the amended § 102(e) and illustrative examples.

I. *Guidelines To Implement Changes in 35 U.S.C. 102(g)*

Section 4806 of the Act amended 35 U.S.C. 102(g) to read as follows:

A person shall be entitled to a patent unless-

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

The effective date of this change to § 102(g) is the date of enactment, November 29, 1999. Amended § 102(g) will apply to all interference proceedings involving applications pending on November 29, 1999 since this change merely ratifies an existing interpretation of the law. The significant features resulting from this amendment to § 102(g) are the following:

(1) Amended § 102(g) makes it explicitly clear that a party involved in an interference proceeding under 35 U.S.C 135 or 291 may establish a date of invention under § 104. 35 U.S.C. 104, as amended by GATT (Public Law 103-465, 108 Stat. 4809 (1994)) and NAFTA (Public Law 103-182, 107 Stat. 2057 (1993)), permits a party to establish a date of invention in a NAFTA member country on or after December 8, 1993 or in WTO member country other than a NAFTA member country on or after January 1, 1996.

(2) Apart from interference proceedings under 35 U.S.C. 135(a), and ex parte examination following an interference to enforce the judgment in the interference and the estoppel provisions of 37 CFR 1.658(c) [see also In re Deckler, 977 F.2d 1449, 24 USPQ2d 1448 (Fed. Cir. 1992) (party losing interference is not entitled to claims to same patentable invention as count—based on estoppel) and Ex parte Tytgat, 225 USPQ 907 (Bd. App. 1985) (same)], evidence of a date of invention in a NAFTA or WTO country other than the United States will not be considered prior art under § 102(g), as amended.

(3) No change is anticipated in 37 CFR 1.131 practice, which will continue to require diligence until reduction to practice. In re Eickmeyer, 602 F.2d 974, 202 USPQ 655 (CCPA 1979), states that Rule 131 practice is not necessarily controlled by the laws pertaining to interference. In addition, through a Rule 131 affidavit, parties will be able to continue to show evidence of the date of invention in a NAFTA member country and a WTO member country to the extent permitted by 35 U.S.C. 104.

Implementation Steps As to Amended 35 U.S.C. 102(g)

Since the amendment to § 102(g) merely ratifies an existing interpretation of the law, no changes in practice are needed.

II. Guidelines To Implement Changes in 35 U.S.C. 103(c)

Section 4807 of the Act amended 35 U.S.C. 103(c) to read as follows:

(c) Subject matter developed by another person, which qualifies as prior art only under one or more of subsections (e), (f), and (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

This change to § 103(c) applies to any patent application filed on or after the date of enactment, November 29, 1999. American Inventors Protection Act of 1999, Pub. L. No. 106-113, Sec. 4807(b). This amendment to § 103(c) does not apply to any application filed before November 29, 1999, any request for examination under 37 CFR 1.129 of such an application nor any request for continued examination, which is defined in section 4403 of the Act, of such an application. The significant features resulting this amendment to § 103(c) are the following:

(1) Subject matter which was prior art under former 35 U.S.C. 103(c) via § 102(e) is now disqualified as prior art against the claimed invention if that subject matter and the claimed invention "were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person."

(2) The mere filing of a continuation application on or after November 29, 1999 will serve to exclude commonly owned § 102(e) prior art that was applied, or could have been applied, in a rejection under § 103 in the parent application. For reissue applications, the doctrine of recapture may prevent the presentation of claims that were cancelled or amended to overcome such prior art applied in the application which matured into the patent for which reissue is being sought. See (4) below for further explanation.

(3) This amendment applies only to prior art usable in an obviousness rejection under § 103. Subject matter that qualifies as anticipatory prior art under § 102, including § 102(e), is not affected, and may still be used to reject claims as being anticipated.

(4) The recapture doctrine may prevent the presentation of claims in reissue applications that were amended or cancelled from the application which matured into the patent for which reissue is being sought, if the claims were amended or cancelled to distinguish the claimed invention from § 102(e)/103 prior art which was commonly owned or assigned at the time the invention was made.

(5) The burden of establishing that subject matter is disqualified as prior art is placed on the patent applicants once the patent examiners have established a prima facie case of obviousness based on the subject matter.

(6) Nonstatutory and statutory double patenting rejections, based on subject matter now disqualified as prior art in amended § 103(c), may still be made by patent examiners.

Implementation Steps As to Amended 35 U.S.C. 103(c)

A. Applications To Be Considered.

(1) The amendment of § 103(c) "... shall apply to any application for patent filed on or after the date of enactment of this Act," which is November 29, 1999. Therefore, amended § 103(c) will be applied to all utility, design and plant patent applications filed on or after November 29, 1999, including continuing applications filed under 37 CFR 1.53(b), continued prosecution applications filed under 37 CFR 1.53(d) and reissues. Reexaminations proceedings are not "any application for patent." Therefore, this amendment to § 103(c) does not apply to reexamination proceedings.

(2) Amended § 103(c) does not affect any application filed before November 29, 1999, a request for examination under 37 CFR 1.129(a) of such an application nor a request for continued examination (defined in section 4403 of the Act) of such an application.

B. Examination Procedure with respect to amended 103(c).

(1) Examiners are encouraged to check the assignment records, which are available on the Patent Application Locating

and Monitoring (PALM) system, for the patents and applications involved in any rejection to see if there is a possible common owner or assignee with the application being examined. Since examiners should always apply potentially commonly owned or assigned prior art, the review of assignment records is only to indicate to the examiner whether making one or more appropriate back up rejections should be considered. The assignment records on PALM show the execution date of any recorded assignment. Since applicants are not required to record assignments, however, these records are not the exclusive means to determine whether there was common ownership at the time the invention was made. In addition, the Office records other papers, such as employment contracts, which are not evidence of common ownership. Therefore, the examiners should be careful to refer to the box labeled "Brief" on the bottom of the PALM screen which provides a brief description of the paper recorded as stated by the applicant. **Examiners should not fail to apply a reference believed to be commonly owned at the time of the invention based only upon the data in PALM.** The assignment information in PALM, however, may give an examiner a warning that a reference may be disqualified by the applicant in the future.

(2) Applications and patents will be considered by the examiner to be owned by, or subject to an obligation of assignment to, the same person, at the time the invention was made, if:

(a) the applicant provides evidence that the application and patent files refer to assignments recorded in the PTO in accordance with 37 CFR 3.11 which convey the entire rights in the applications to the same person(s) or organization(s) at the time of the invention;

(b) copies of unrecorded assignments which convey the entire rights in the applications to the same person(s) or organization(s) at the time of the invention are filed in each of the applications and patents;

(c) an affidavit or declaration by the common owner is filed which states that there was common ownership at the time the invention was made and explains why the affiant believes there was common ownership; or

(d) other evidence is submitted which establishes common ownership of the applications and patents at the time the invention was made, e.g., a court decision determining the owner. In circumstances where the common owner is a corporation or other organization, an affidavit or declaration averring ownership may be signed by an official of the corporation or organization empowered to act on behalf of the corporation or organization.

(3) If the application file being examined does not establish that it and the reference patent(s) or application(s) are owned by, or subject to an obligation of assignment to, the same person, at the time the invention was made, the examiner will:

(a) assume the application(s) and patent(s) are not commonly owned;

(b) examine the application on all grounds other than any conflict between the reference patent(s) or application(s) arising from a possible § 103 rejection based on § 102(e), (f) and/or (g);

(c) consider the applicability of any references under § 103 based on § 102(e), (f) and/or (g), including provisional rejections under 35U.S.C. 102(e)/103; and

(d) apply the best references against the claimed invention by making rejections under §§ 102 and 103, including any rejections under § 103 based on §§ 102(e), (f) and/or (g), until such time that proof is submitted that the application(s) and patent(s) were commonly owned, at the time the invention was made (see (2) above). When applying any ¿ 102(e)/103 references against the claims, the examiner should anticipate that an affidavit (or other adequate proof) averring common ownership at the time the invention was made may disqualify any patent or application applied in a rejection under § 103 based on § 102(e). If such an affidavit (or other adequate proof) is filed in reply to the § 102(e)/103 rejection and the claims are not amended, the examiner may not make the next Office action final if a new rejection is made.

(4) If the application being examined establishes that it and any reference patent or application were owned by, or subject to an obligation or assignment to, the same person, at the time the invention was made, the examiner will:

(a) examine the applications as to all grounds except §§ 102(e), (f) and (g) as they apply through § 103, including provisional rejections under 35 U.S.C. 102(e)/103;

(b) examine the applications for double patenting, including statutory and nonstatutory double patenting, and make a provisional rejection, if appropriate; and

(c) invite the applicant to file a terminal disclaimer to overcome any provisional or actual nonstatutory double patenting rejection, if appropriate.

III. *Interpretation of the term "original application" to clarify the application of the Optional Inter Partes Reexamination Procedure*

Section 4608 of the Act states the effective date and applicability of the Optional Inter Partes Reexamination Procedure established by Subtitle F of the Act. Specifically, Section 4608 states that the changes in Subtitle F "... shall take effect on the date of enactment of this Act and shall apply to any patent that issues from an original application filed in the United States on or after that date."

The phrase "original application" is interpreted to encompass utility, plant and design applications, including first filed applications, continuations, divisionals, continuations-in-part, continued prosecution applications (CPAs) and the national stage phase of international applications. This interpretation is consistent with the use of the phrase in 35 U.S.C. 251 and the federal rules pertaining to reexamination. In addition, section 201.04(a) of the Manual of Patent Examination and Procedure (MPEP) defines an original application as "... an application which is not a reissue application." Section 201.04(a) of the MPEP further states that "[a]n original application may be a first filing or a continuing application." Therefore, the Optional *Inter Partes* Reexamination Procedure is applicable to patents which issue from all applications (except for reissues) filed on or after November 29, 1999. A patent which issued from an application filed prior to November 29, 1999 with a request for continued examination (defined in section 4403 of the Act) on or after May 29, 2000, however, is not eligible for the Optional *Inter Partes* Reexamination Procedure. A request for continued examination is not considered a filing of an application

SPECIAL BOXES FOR PATENT MAIL

Special box designations should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these special boxes. If any documents other than the specified type identified for each special box are addressed to that box, they will be significantly delayed in reaching the appropriate area for which they are intended.

Reference Collections of U.S. Patents and Trademarks
Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information from the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis CD-ROM series are available at all PTDLs to increase access to that information. It is through the CD-ROM systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan, the Sunnyvale Center for Innovation, Invention and Ideas (SCI^2) at the Sunnyvale Public Library in Sunnyvale, California and at the South Central Intellectual Property Partnership at Rice (SCIPPR) at the Fondren Library of Rice University in Houston, Texas.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS ISSUED UNDER SECTION 1(d)

The following marks have registered on the Principal Register pursuant to the intent-to-use provisions of Section 1(d) of the Trademark Act of 1946, as amended.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS AMENDED, CORRECTED, ETC.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Any change to the registration will be indicated at the bottom of each entry under ELEMENTS AMENDED, CORRECTED OR RESTRICTED. With the exception of changes to the goods and services, additions to the registration will appear in asterisks and deletions of the registration will appear in brackets. Elements which are only changed will be listed with no punctuation. As to the goods/services statement, amendments to the goods/services will appear in asterisks and deletions will appear in brackets. In addition if any change to the goods/services occurs, the element "Goods/Services" will be listed under ELEMENTS AMENDED, CORRECTED OR RESTRICTED.
